New York, USA

PROJECTS

- **AirEx** [airexp.herokuapp.com]
  During this agile course project, we built a website for AirEx that allows users to track items shipped, locate nearest AirEx locations, and get price estimates. AirEx is a service aimed at providing solutions for travelers who aren't allowed to get packaged items through airport security. AirEx stores the prohibited items for travelers and can also ship it back to their home locations.
  JavaScript, React.JS, HTML, CSS

- **Weather App** [Jose's Weather App]
  Created a weather app that allows users to search for accurate and current weather information for any city and state across the US. I leveraged axios to integrate with the Openweathermap API that provides weather data. .
  JavaScript, React.js, HTML, CSS, Axios

- **NYPD Shooting Incidents Data Of 2019** [Click Here to see the Stats!]
  Using Python's Jupyter Notebook I was able to extract data on shooting incidents across NYC. The data is also visualized across several heat maps, allowing you to identify areas with high crime.
  Python

- **Messaging App** [Jose's cool messaging app]
  Developed a messaging forum where members can engage with others across the user network. To join, users must log in with their google account. The forum is moderated and is able to automatically detect and warn users against the use of profanity.
  JavaScript, React.js, HTML, CSS, Firebase

EDUCATION

- **B.S. In Computer Science**
  CUNY - Lehman College
  2017 - 2020

SKILLS

- **Technologies**
  HTML, CSS, JavaScript (React), Java, GUI Programming, Python, Git/Github

- **Practices**
  Web Development

- **Project Management**
  Knowledge of Agile & Scrum from Software Engineering course

- **Soft Skills**
  Microsoft Word, Excel, Outlook, Power Point

- **Language Skills**
  English (Fluent), Spanish (Fluent)

EXPERIENCE

- **Reprographics Office, Borough Of Manhattan Community College**
  College Assistant - New York, NY
  Receptionist Duties/Customer Service, Data Entry/Stock Check, Print Production, Shipping Receiving
  August 2013 - July 2020
