New York, USA

EXPERIENCE

- **Reprographics Office, Borough Of Manhattan Community College**
  College Assistant - New York, NY
  Receptionist Duties/Customer Service, Data Entry/Stock Check, Print Production, Shipping Receiving
  August 2013 - July 2020

PROJECTS

- **AirEx** `[airexp.herokuapp.com]`
  During a software engineering course I took we were put in an Agile squad to create a airport security website made with React.JS. Through the semester we would meet with our client(professor) weekly to see what other requests or changes he might want . The purpose of this product is to provide customers with a solution to handle items airports will not allow. We wanted to guarantee safety and quickness when handling items.
  JavaScript, React.JS, HTML, CSS

- **NYPD Shooting Incidents Data Of 2019** `[Click Here to see the Stats!]`
  Using Python's Jupyter Notebook I was able to show the statistics of shooting incidents that occurred during 2019 by using a dataset from the NYPD. I was also able to pull up the hotspots in the city by using coordinates from the dataset.
  Python

- **Connect Four Game** `[GitHub]`
  Designed a connect four game using Java and GUI programming where a player is able to choose his/ her own initial as their symbol for their piece in the game
  Java
